2. Key Health Sector Response and Coordination:

Disease Surveillance:

Reporting Platform

Surveillance, Outbreak Response Management and Analysis System **(SORMAS)**

Reported cases in Past 24 | Various holding centers in Rasuwa & Nuwakot Districts

12 ILI Cases Fever with Cough	**1 Acute Gastroenteritis** AGE Symptoms	**0 Fever with Rash**	**20 Fever Cases**

Appropriate case management and response measures are being undertaken by the respective municipal levels. **Note:** Public health measures have been implemented, with further investigation and monitoring ongoing.

Nuwakot: The Ministry of Health and Food Safety, Department of Health Services, and partner organizations coordinated a free health camp on 20 Bhadra 2083 in Bidur–3, Sirkhali, for communities affected by the Bhotekoshi flood. **A total of 200 people received services**, including **101 older persons (48 female, 53 male)**. Health check-ups, specialist consultations, medicines, and **psychosocial counselling for 25 people** were provided. Essential medicines were also supplied to Nepal Army and Armed Police Force personnel deployed in the affected areas.

Nuwakot:
1.EDCD team monitored disease surveillance and response activities at holding centres in the flood-affected areas and reviewed the current status and progress.
2.Mental Health Cluster meeting was conducted to discuss ongoing mental health and psychosocial support (MHPSS) response activities.

⚠ Potential Outbreak Management and Response:

- Regular monitoring is ongoing in flood-affected areas and holding centers to prevent potential outbreaks, including surveillance of symptoms such as fever, diarrhea, and cough among young children.
- 21,000 doses of oral cholera vaccine (OCV) have been transported today for preparedness and response to a potential cholera outbreak in Rasuwa.
- In coordination with the Provincial Government, water quality monitoring and surveillance are being carried out in flood-affected areas and holding centers.

Body Management and Post-Management Environmental Decontamination Work:

- Teams have been deployed to flood-affected areas for dead body management and environmental decontamination following dead body management.
- HEOC coordinated dead-body management supplies and deployed teams for body management and post-management environmental decontamination.
- NPHL supplied 1,000 DNA sample-collection containers to support identification of deceased persons.
- Body-management supplies included body bags, PPE and post-mortem/forensic materials from government and partners; later DoHS dispatches to Rasuwa included body tags, ziplock bags, registers, markers, teeth extractors and duct/water tape.

3. Details of the health services provided at the holding centers:-
